

# GROWTH INVEST

GrowthInvest is seeking a bright, ambitious graduate to join our operations team and help us build a smart technology platform for alternative investments.

**Job Title:** Research and Data Analyst

**Salary:** Competitive

**Location:** City of London

**Reporting to:** Chief Operating Officer

**Start Date:** Immediate

GrowthInvest is an early stage, high-growth business on a mission to make alternative investments more accessible for wealth managers, financial advisers and high-value clients.

This opportunity offers the right person the ability to play a vital and varied role in a fast-growing company at a key stage in its development. The role will centre around the research and maintenance of key internal and extra data sources, and use of analysis and data management to extract maximum value on behalf of the company and clients. We're looking for somebody who can be an ambassador for GrowthInvest, with the energy and ambition to make a big impact in a small and growing team.

## Key Responsibilities

- You will be working directly with Chief Operating Officer and operations team to report and analyse data from the GrowthInvest platform and related in-house systems
- You will manage the research and maintenance of real-time market information (e.g. open investment offers) via primary research and integration with third parties
- You will be assisting with the day-to-day management of company accounts, pipelines and budgets; managing supplier, investor and client relationships as required; and reporting on platform flows
- We're looking for someone with the analytical ability to dissect and report on large quantities of complex data, with the ability to work as part of a team and contribute to various back-office responsibilities

## Experience and Qualifications

We are looking for candidates with an (achieved or predicted) 2.1 degree or above in a relevant discipline.

Our ideal candidate will have some or all of the following skills and experiences:

- A genuine interest in data analysis, research and/or the investment market
- The ability to absorb large amounts of information and stay on top of key market trends and changes
- The capacity to manage a fast pace and competing priorities
- Excellent IT and organisational skills, with the ability to master new systems and software if needed

To apply, please send your CV and a covering email to David Lovell, Chief Operating Officer [david.lovell@growthinvest.com](mailto:david.lovell@growthinvest.com). We look forward to receiving your application!
